SOFT SKILLS

- Teamwork
- Problem-Solving
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Languages: Java, JavaScript, Python, C/C++, PHP, TypeScript, Kotlin.
- Web Technologies: Node.js (Express.js), React.js, RESTful APIs.
- Databases: MySQL, MongoDB.
- Version Control: Git (GitHub).
- Mobile: Android Development.
- Tools & Concepts: Docker, Socket.IO, WebSocket, OOP,

LANGUAGES

- English

CAREER OBJECTIVE

Eager to apply learned knowledge and practical experience, rapidly acquire and master new technologies (especially in Full-stack Development with Node.js and React.js). My goal is to become a professional Software Developer, contributing significantly to real-world projects to deliver high-quality software solutions and contribute to the company's overall growth.

EDUCATION

Information technology 2029 - 2032
Industrial university of Ho Chi Minh city
GPA: 3.02 / 4.0
Currently: 4th-year student

WORK EXPERIENCE

- Software Solutions Company NTD** MAY 2024 - SEP 2024
- Independently developed and deployed an Android mobile application project from start to finish, including UI/UX design, feature development, testing, and performance optimization.
 - Provided technical support and maintenance for various existing Android application projects within the company, including bug fixing, implementing new features based on requirements, and optimizing codebase. JUNE 2028 - JAN 2029
 - Proactively researched and applied new Android technologies and libraries to improve product quality and enhance user experience.
 - Participated in code reviews, contributing ideas to ensure code quality and adherence to development standards.

PROJECTS & SCIENTIFIC RESEARCH

Farm Monitoring and Automation System

Developed an IoT-based smart farm system for monitoring environmental factors (temperature, humidity, soil moisture, light, rainfall) and automating control of devices (irrigation pumps, sun/rain shields) to protect crops.

Technologies Used: Node.js, Express, MySQL, Reactjs, Firebase, IoT

Smart Job Tracker & Resume Optimizer

A web platform that supports job seekers and recruiters by using AI (GPT) to evaluate CVs, generate CVs according to job descriptions (JDs), track application progress, and manage recruitment.

Technologies Used: Node.js, Express, MongoDB, Reactjs, Firebase, TS, GPT-4 API
